Introduction

The 6th edition of The King's School Register includes entries for boys entering the School up to 2019. It follows the format of previous editions and is indebted to those who compiled those editions, particularly Mr Peter Yeend the previous School Archivist.

A register such as this depends on the collective wisdom and support of so many, those who provide updated information and those who compile and correct. Apart from the many former students who completed questionnaires, the following people have diligently and in some cases voluntarily, provided their skills to ensure this publication came to fruition. Sincere thanks must be given to Eileen Rainey, June Davey, Trish Rogers, Bernadette Horrell and more recently Donna Haddad all of whom spent many hours collating, typing and correcting information.

Ultimately however the responsibility for the accuracy of the information provided belongs with the editor and while every effort has been made to ensure that each entry is correct there are bound to be omissions and errors and for this I apologise, especially if as a past student you took the time to return the questionnaire. The online edition of The King's School Register will continue to be updated and corrected regularly.

There have been a few changes with this edition that are worth noting. Where the information was provided, mother's initials now follow details of a boy's father, particularly for those enrolled after 2000. Birthdates have been removed to lessen the online threat of identity fraud and biographies have been expanded to include significant academic achievements. There has also been a concerted effort to ensure that post school qualifications have been included.

The support of the Headmaster, School Executive, the Council of The King's School and The Old Boys' Union is gratefully acknowledged.

In 1980, the Synod amended The King's School Council Constitution Ordinance 1922 to alter the composition of the Council. The Archbishop of Sydney, formerly Chairman of the Council, became President, and a separate office of Chairman was created. The number of Synod elected Governors was reduced from twelve to ten, and the Council itself was empowered to elect a further two Governors. The Old Boys' Union representatives became Governors elected by the Union. The first Chairman under the amended ordinance was its former Honorary Secretary, Mr. PT Nicholson, who was elected in February 1981.

4 The Teaching Staff

The teaching staff of The King's School Parramatta has been divided into three categories of appointment: permanent, temporary and visiting. The definition of permanent staff has varied over time. At the present time permanent appointments are not confirmed until the staff member has been on the School staff for at least twelve months. Generally, a temporary staff member is employed to provide cover for someone on extended leave, while a visiting staff member is a music or specialist teacher employed on a part time or casual basis.

The lists below are by no means definitive because the only reasonably complete records kept of staff appear to be in the School Magazine. Qualifications and years of employment placed alongside staff names are also taken from the School Magazine.

As this list is by no means definitive, information concerning members of staff would be gratefully received by the School Archivist.

4.05 Senior Staff in the Preparatory School

The Lower School of the 1850s evolved into the Preparatory School at Gowan Brae in 1955. Thus the Lower School boys were the first boys on the new site. It is of interest that when The King's School opened in 1832 the three who turned up on the first day were all under ten.

The Library

The School has always had some kind of a library. In 1856 Mr. J.N. Flower was Librarian to a collection of over five hundred books but until 1886 the books in the library were the headmaster's possessions in the same way as the headmaster owned the furniture, linen, bedding and cutlery. With the establishment of a School Council and G.F. Macarthur's sale of his school artifacts to the School Council rather than to the incoming headmaster, the basis of a permanent library became available.

5 Matrons and Health Centre Staff

Other than his Housemaster, Matron is the person most likely to be remembered by a boy after he leaves the School.

Until 1908 all boys were either day boys or boarders in the School House and thus there was only one Matron. The opening of other boarding houses away from the School site, saw a matron established in each new House. Then in 1918 a School hospital, on site, was established to cope with epidemics which obviously could spread across all Houses. So a matron was established at the Hospital and she relieved in the Houses when her Hospital was closed.

With the move to the new site in 1964 a School Hospital (now called Health Centre) was built there to which all Houses on site were to send boys who needed hospitalisation. This new hospital conducted casualty morning and night and also catered for the needs of day boys formerly the duty of the School Houses Baker and Forrest matron. On the new site a House Matron was also established with small sick bay in each House but the House Matron's major duties involved supervision of the domestic requirements. The earliest matrons were the wives of the Headmasters as this ditty from the 1830's recalls;

"Long Bob and Slender Jane
The one ministered the physic
And the other the cane"

GF Macarthur was the first to appoint a regular Matron. This occurred at his Macquarie Fields school and he brought Matron with him when he returned to the Parramatta site.

The School Member of the Old Boys' Union

The first motion passed at the foundation meeting of the Old Boys' Union was that masters, past and present, were eligible to join the Union.

WS Corr represented the School on the Union Committee until 1896. He then acted for the Union as its School Representative until 1899 when the Union decided to ask the Captain of the School, EF Waddy, to act as representative for the Union. This arrangement did not prove wholly satisfactory so Mr Corr continued to act for the Union until 1904 when he left the School.

Mr DJ Thomas filled the gap until Mr Corr returned in 1911. When Mr Corr died, in 1913, the Union invited Mr HC Blaxland to accept the position of School Member. In 1938 Mr Blaxland died. Mr CH Harrison was now invited to become School Member.

Since 1938 the position has been filled by:

1938 - 54	CH Harrison	1964 - 76	JW de B Persse
1954 - 55	JSB Doak	1976 -2000	PJ Yeend
1955 - 64	R Robertson	2001-	PJ Phipps

Notes: 1) In 1971 Mr IJ Humphreys acted as School Member as did Mr. P.J Yeend, in 1976. On both occasions Mr Persse was on a teaching exchange in England.

2) When Mr CH Harrison was on leave in 1949-50, Mr JSB Doak acted as School Member. He also stood in for Mr Harrison, as required, from 1951 to 1954.

* = *Killed on active service*

The following names were located in the School Magazine as among those old boys of the School who served in World War I. These names do not appear on the School Roll. They are included in the above list in italic type only because they appear on the School's Honour Boards. It is very unlikely those named below ever attended the School.

10.04 World War Two

Establishing which Old Boys served in World War Two has proved very difficult for the School Magazines, from 1939 to 1946, are riddled with duplication of names, contradictory initials and incorrect spellings of surnames. The Chapel War Memorial to the dead, as it also does for World War One, contains spelling errors and incorrect initials. The list below is as accurate as may be compiled considering the resources available. The Archivist would be most grateful to hear of errors and omissions.

Where it was not possible to clearly identify a person, listed in the School Magazine as having served in World War Two, his name was placed in a supplementary list which appears after the main list.

11 Captains of the School

It is very likely that there were captains of the School from 1832 but the first known school captain was listed in 1851.

12 Vice Captains of the School

It is uncertain when the position of vice captain of the School was formally created. There was, however, a hierarchy of Monitors as early as 1888 for lists appear in the 1888 Magazines and in subsequent issues. This list assumes the vice captain to be the boy most senior in the Monitors' list. For some of the 1890s there are still gaps to be filled.

The Day Boys' House

When regulations were drawn up governing the conduct of inter-house contests for the Thomas Cup, donated by Mr. DJ Thomas in 1909 to encourage healthy rivalry between the Houses, it was definitely laid down that, for the purposes of the competition, the Day-boys were to rank as a House. The rise in Day-boy status has been a slow process of evolution. When the School opened on 13 February 1832 its only pupils were three day-boys, all under nine years of age. Though some of the School's finest scholars and athletes have come from their ranks, it was not until 1893 that they received any special mark of favour from the School authorities. In that year, Dr Harris created the office of captain of Day-boys and AS MacPhail was the first to be elected. Joining the cadets and wearing the uniform were quite optional, in the case of Day-boys, until June 1907. Both became compulsory after the June holidays of that year, and the Reverend Stacy Waddy further insisted that all Day-boys should learn gymnastics at the School.

School House – Senior School

Until 1909 the School House meant the School itself which had stood on its site since 1836. The distinguishing title ‘School House’ dates from 1909 when the first outside senior House ‘The Farm’, was established. To conform with the House system in general, a House Master and a House Captain were appointed. Up to 1909 the title House Captain School, was synonymous with that of Captain of the School, but since that date captains of the other Houses have been eligible for the office of Captain of the School.

16 School Scholarships

Not all scholarships are awarded each year. The following lists represent the names of the awardees for the years they are awarded

Harriett Beard Scholarship

The Trust for this boarding scholarship was set up in 1916. There was a life interest in the Estate so the scholarship money did not become available until 1966. Mrs Harriett Beard was a benefactor of Anglican education. She was a storekeeper at Hill End during its gold rush days. Her son attended the School from 1868 to 1871 having formerly been at Macquarie Fields from 1863.

Futter Grants and other Benefits

It appears the School Council has been offering scholarships, bursaries and exhibitions from 1868. Prior to that time, and to some extent until 1886, the Diocese had a say in the appointment of trustees to administer such awards. SM Johnstone's *The History of The King's School Parramatta*, John Sands (1932) deals with these matters thoroughly.

From the 1940s onwards there has been a constant flow of unpublished School Council awards, usually based on need. In some years, in the 1950s, over twenty boys gained benefits much larger than those gained by boys who won minor scholarships. After consideration, and because the grants were usually need based and therefore the subject of confidences, it has been decided not to publish the names of such boys in this *Register*.

The Futter Trust Scholarships

These Scholarships are awarded for open entry in Year Seven on a purely academic basis and are funded by the Board of Futter Park to cover tuition costs.

17 The Dux of the School

The Reverend Canon Wallace Mort Prize

The School did not use the title “Dux” before 1960. There was a Sixth Form prize between 1923 and 1959. Prior to 1923 the boy first on the classics side was considered the most able academically. Unfortunately, in the last century, once a boy won his honour once he was not usually considered again. Thus a boy could, in effect, be “Dux” three years before he left School.

The current prize for “Dux” is called the Reverend Canon Wallace Mort prize. Mort was a boy at Macquarie Fields (MF 1861-62) and a Governor of the School (G 1889-1924). He endowed his prize as a Classics prize in 1933. The first known “Dux” was JD Cox in 1853.

20 Special Prizes

The Vacy Prize

The Vacy Prize for Sheep and Wool was endowed by VB Rogers, (1903-05, M 1923-35) and uncle of Mrs R Cox (M 1942-44, 1951-70). This prize was given to the boy who gained first place in the sheep and wool class. Between 1924 and 1926 the prize was known as Mr Bruce Rogers Prize for Sheep and Wool. It is currently awarded to the boys who have contributed most to senior Agriculture in the School.

Divinity Prizes

Divinity, as a subject, was introduced to the boarders in 1883. The subject makes but a brief appearance and then re-appears in 1889. From 1889 to 1906 there are large gaps in Divinity prize lists. It appears that it is not until PS Waddy's headmastership that regular Form prizes were awarded for Divinity. Prior to 1908 Archdeacon Gunther (1852-57; G 1885-1918); the Primate of the time; headmasters and others all awarded prizes, on occasions, for subjects connected with religious education.

21 Alpha Awards and Academic Colours

These Awards were first presented in Term 1, 1997. They are awarded to the top academic boys in each Year. In Year Twelve this involves the award of Academic Honours to the top boy, and a light blue honour coat with a suitably inscribed pocket; academic colours to others in Years Twelve and Eleven, with a suitably inscribed pocket for the striped blazer, and an academic alpha tie for each recipient. For Years Eight, Nine and Ten the Awards involve small alpha badges to be worn above the lovers' knot on the uniform jacket, and for Year Seven appropriate certificates.

Gold Medallions for Outstanding Achievement in Sport

Medallions are awarded to any boy who is a member of premierships first teams in one sport for three successive years. The first awards were made in 1892. It is not known whether gold medals were awarded to RAP Waugh (1894), MR Campbell (1928), WA Farquhar (1951) and JHB Martin (1956), but each appears to be qualified for the Award.

Stanley Wilson—Oxford Scholarship

This Scholarship was founded by the gift of the Estate of the late CSW Wilson in 1945. Mr. Wilson's three sons, MG (1916-20), AS (1921-25) and BC (1923-26), attended the School. The Scholarship was intended to help past pupils who proceeded to Wadham or other College at Oxford. Its terms became more liberal in 1974 so that the Scholarship may be awarded to an applicant studying at other British universities. Arthur Stanley Wilson attended Oxford University and later practiced as a Barrister in London. He was killed in action on 9 February 1940 while serving with the Royal Navy. This Scholarship commemorates his memory.

24 The Air Training Corps

The School ATC Unit was formed in 1942 with a strength of twenty-six. The first boy in New South Wales to enrol in an ATC Flight was registered from The King's School. Wing Commander NB Love, father of JN (1937-41) and RB (1940-44) and Mr HD Hake were the instigators of the ATC concept which was aimed at establishing a training ground for youths of seventeen and over prior to the boys entering wartime service in the RAAF. No boy from The King's School could join the School's ATC until he had served two years in The King's School Cadet Corps. This restriction was removed in later years.

In 1908 the Commonwealth Government grouped School Cadet Corps, in the Sydney area, to form the 3rd Battalion of Senior Cadets. The various School units thus became a regular part of the Commonwealth Defence Force and school boys, seventeen or older, could now rise to the rank of an officer. Two boys from the School were commissioned prior to 24 March 1908. They were F Arnott and AR Metcalfe. Thus, when universal compulsory training was introduced, the drill of boys at the School seventeen years and over was taken over by the Defence Department and junior cadets were exempted from training.

In 1928 the School's Cadet Corps was allowed to be revived by the Defence Department exempting from Battalion training all boys who drilled at the School. The result was that a small School Cadet Corps of seventy-eight was formed into three platoons each with an NCO. CSM CS Rowntree was thus the first boy to be given command in the Corps since SR Reynolds in 1908. In 1929 IF Glennie was commissioned as the School's senior Cadet Officer.

Regimental Sergeant Major (WO1)

Prior to 1929 the records are not consistent regarding the appointment of the Regimental Sergeant Major, or the rank which held the position now known as Regimental Sergeant Major. The name changed over the years and included CSM. Please contact the Archivist if you know who held the position in 1952 and 1953.

FW and FB Burton Cup

This cup, initially the FW Burton Cup, was presented by FB Burton (1945-49) and is given to the boy in any age division who, in the opinion of the Master in Charge of Athletics, has performed meritoriously at the Annual Athletics Championships. Following the death of FB Burton in 2009 the Cup was renamed.

The Nancy Atterton Cup

Awarded for the 4 x 400 relay and donated in 2010, the Cup is named after Nancy Atterton, nee Fogarty who won gold as a member of the 1954, 4x100 relay at the Empire Games. Nancy, commenced with The King's School Athletics program in 1997 having also worked with Commonwealth Games and Olympic athletes. She is the mother of Stacey Quitzau (Master TKS 1997- 2013) and grandmother to AJ (2002-05), CD (2002-07), ZA (2005-10) and EPJ Quitzau (2007-12). The first mention of this race was in 1982 when it was won by Macarthur House. Since then there has been no consistent mention of the winner of this race until the awarding of the cup.

The Atwill Buxton Kenrick Memorial Trophies

The Atwill Buxton Kenrick Memorial Trophies are awarded to all winners of field events at the School Track and Field carnival. AB Kenrick was at School from 1877 to 1880. The first awards were made in 1955 from a legacy left to the School by Mrs FB Kenrick a sister of Miss FCA Macartney who donated the Hussey Burgh Macartney Cup. Initially tankards and after 1976, medallions were presented to the winners of the AB Kenrick events inscribed to acknowledge the donor. In more recent times winners of the field events have been presented with cups donated by individuals as recorded below.

The Philip Edge Cup

The IK Robinson Shield for House Tug-of-War

The House Tug-of-War was introduced to the Athletic Sports Day by the School Sports Committee in August, 1936. It is likely that the event was introduced at the suggestion of Mr N Andrews (School Sergeant, 1935-67). In 2011 the Shield was renamed the Ian Robinson Shield in memory of the School Sergeant IK Robinson (1984-2003)

26.02 Australian Rules

In 1974 a challenge game of Australian Rules football was played between St. Ignatius College and The King's School. In 1977 the game was established as a winter sport at the School but it lapsed at the end of 1978. After 1978 only the traditional Riverview fixture was played, but even this has lapsed in the 1980s.

26.03 Basketball

Basketball commenced in 1957 as a game for boys not occupied in Cricket and Rowing. These boys played internal games under the supervision of Sergeant WE White, Mr E Jabour and Mr PJ Yeend. With the establishment of permanent courts on the new site the game became competitive and in 1975 the first AAGPS competition was held.

Honour Coats for Cricket

The earliest official records of honour coats, for cricket, appear in the 1888 *School Magazine* but it seems they were awarded in the 1870s. The list below has been built up from various sources and the compiler makes no claim that it is accurate. Like so much of The King's School past, accurate records of honour coats were never kept.

It is likely cricket was played from the year the School opened but the earliest competitive game recorded is one played in 1847 against the Cumberland Club. In 1870 The King's School Cricket Club presented a bat to Herbert Blaxland "as a token of personal regard and as testimony of his courteous and efficient conduct as their captain during the season of 1869-1870". This bat remains in the School archives as tangible evidence of the School Cricket Club's existence in 1869.

26.06 Cross Country

Cross Country as an official winter sport began at The King's School in 1975 for a small group of non-Rugby senior boys. The first inter-school event was between The King's School and St. Ignatius College in 1977. These two Schools competed regularly in the following years and in 1980 were joined by Newington College. In 1981 a summer Cross Country Fitness group was formed at The King's School which became very popular. Finally, in 1985, the AAGPS, with the support of Headmasters, agreed to trial Cross Country as an official winter sport. Associated Schools and other Secondary Independent Schools were also invited to take part and continue to do so. Its success was immediate with over three hundred boys taking part each Saturday morning. After three years it was agreed to adopt Cross Country as an official GPS sport with an Annual Premiership event at the end of the season, the winning School being the one whose team of five (later four) achieved the lowest time or points.

26.07 Hockey

Hockey was first played in the School in the 1830s. Attempts to re-introduce the game in 1888 and 1928 were unsuccessful but in 1968 the game was successfully promoted. The sport lapsed again in 1985, however, a team was fielded in 1991.

The Verge Cup

The Verge Cup is now given for the boy who contributes most to the Rifle Club during the year. The Cup, given in 1900, was the gift of Arthur Verge (1892-95). The intent of the donor was that the Cup should be competed for annually as a prize for the champion rifle shot of the School Cadet Corps.

TS Townsend, on Prize Day 1871 was awarded a silver cup for Rifle Shooting having won the shooting competition for three years in succession.

Dr Arthur Verge was a captain in the Sixth Australian Light Horse. He died on active service in the Dardanelles in 1915. Dr Verge was a Macquarie Street specialist and had played international Rugby after leaving school.

Shooting Badges

The first shooting badge was awarded by William Dalmas on 23 August 1866, at Macquarie Fields, to Alister McDougall and in 1867 the School competed in matches run by the New South Wales Rifle Association. William Dalmas won the silver cup and Macquarie Fields' boys took the first four prizes. These boys were GS Home, W Chisholm, SJB Beard and WH Mate, the last named being an old boy.

The Macquarie Fields School amalgamated with The King's School on 31 July 1868 and the tradition of shooting matches continued through competition in the Corps and by the School entering in the New South Wales Rifle Association competitions and later in the School's Challenge Shield run within the various school cadet corps. Star Badges and Crown Badges had their origins in these competitions. FF Bundock won Crown Badges in 1874 and 1875 but no other winners are known prior to 1889 except for WA Smith, who won the award in 1876.

In 1907 the Sports Committee assumed responsibility for rifle shooting and thus inherited the traditions of the awarding of Crown Badges and Star Badges which, at that time, were

awarded for the boy with the highest aggregate of the season and to the runner-up respectively.

Since 1907 the conditions for awarding the badges have changed several times and thus only the most recent conditions are included below.

26.09 Rowing

The Boat Club was established in 1893. The first Master-in-Charge was Mr WS Corr. St. Ignatius College lent the School its first boat and rowing commenced on the stretch of water behind the Parramatta Mental Hospital. The Boat Club languished after 1894. Despite two efforts to revive the Club, interest was not rekindled until 1918. The School was Head of the River with the first VIII it entered in 1920. The rudder of this boat and three of its oars are now among our School's archives.

Rugby Honour Caps

Rugby was first played at the School in 1870. In the earliest photograph, that of 1873, no player is wearing an honour cap, but written evidence shows they were awarded in 1870 and subsequently. The first records in photographs and School magazines are contradictory, thus the records below cannot be considered accurate. They are, however, all that can be compiled from available evidence.

Honour caps for Rugby had their genesis in the English idea of capping a player who excelled and thus was now a recognized member of the team. Rugby players at The King's School were capped from 1870 but it was not until 1910 that the first of a hierarchy of caps was established under a distinctive name. In that year the School's Old Boys' Union donated a cap for the player who had shown the most outstanding leadership in the 1st XV. In 1919 Mr CJ Brabazon donated a cap in recognition of the work done by Rugby coaches in the School. This cap was called the AG Brabazon (1913-17) cap. In 1928 Mr HC Grant, father of HJ (1925-31) and KW (1925-32), donated another cap and in 1954 the trustees of the Charles Harrison (M 1920-54) fund, yet another. In the 1950s the MacSmith family donated another cap to be called the Mac (LM 1901-03) and Bede (FB 1900-03) Smith.

From 1974 to 1994 those boys awarded a Rugby Honour Cap were also awarded an Honour coat. Not all Honour caps are awarded each year and Honour Colours are awarded to players who may not necessarily be awarded an Honour Cap.

The Archivist would be grateful for the names of winners of Rugby Honour Caps prior to 1885.

26.12 Association Football (Soccer)

Football was first played at The King's School on 14 August 1880. Indeed this game between the School and the Wanderers was the first competitive game of Football played in New South Wales. In the 1960s Football revived as a lunch-hour activity among the Day Boys. Boarding houses soon joined in and outside games commenced in 1971. In that year Major Chiong, equerry to HRH Crown Prince Mahidol (1970-71) of Thailand, an ex-international and national coach, gave considerable assistance to the game in the School.

26.13 Swimming

The Swimming Club was formed in October 1893. Swimming carnivals have been held at the School since the completion of the School swimming baths, in December 1908. Until 1978 the School had not regularly entered in official AAGPS competitive swimming but the completion of a new eight lane swimming pool, in 1975, allowed swimming to become a regular sport within the School. The School swimming sports, until 1956, were usually organised by a sub-committee of the School Sports Committee. In 1956, a captain of Swimming was appointed to convene the sub-committee.

26.14 Tennis

Tennis was played, at the School, in the 1870s. The School Club was formed in 1887 and an outside tournament played in 1892, but the game first became a regular feature of school life, in 1908, when it became part of the House competition. In 1911 the Feez Shield was presented for competition singles in the School. In 1921 the AAGPS began promoting the game and it was eventually admitted as a competition sport in 1972.

27 The Athletic Association of the Great Public Schools of New South Wales

The Athletic Association of the Great Public Schools of New South Wales (AAGPS) was the outcome of a meeting held at Gunsler's Cafe, near Circular Quay, on 30 March 1892. The Schools represented at the initial meeting were The King's School, St Ignatius College, St Joseph's College, All Saints College, Bathurst and the North Shore Grammar School (SCEGS). On 12 April delegates from Sydney Grammar School, Newington College and Coerwull Academy joined those who attended the first meeting. At a third meeting held on 28 April 1892 membership of the AAGPS was clarified and St Patrick's College Goulburn, St Stanislaus College Bathurst and The Scot's College which was to open the following year joined those Schools who had attended the earlier meetings. Sydney High School applied for membership in March 1894 but they were not admitted. The Armidale School was luckier entering the Association on 7 May 1897. Sydney High School was finally admitted on 14 February 1906 on the casting vote of the Chairman Mr GP Barbour of Sydney Grammar School. No other schools have subsequently been admitted although All Saints College, Coerwull Academy, St Stanislaus College and St Patrick's Goulburn did not long remain members.

It may surprise most people alive to know that the AAGPS competitions were not always held in the form they have been for many years now. In Rowing, for instance, it was 1936 and a move of venue to the Nepean River which allowed all Schools to compete in one race.

In Athletics the first combined meeting was held in 1895. Prior to that year each school held one race, the race distance awarded to each school being decided by ballot. The school with the most wins was awarded the season's trophy.

The Rugby competition in the early years saw schools pop in and out of the competition. Of the present eight contestants in the AAGPS Rugby, St Ignatius played first grade initially in 1907, Scots in 1915 and Sydney High in 1916. Thus the position gained by The King's School on the Rugby record has to be considered in relation to the number of entrants in the annual competition. Similar difficulties exist when reading the position of The King's School in the Cricket record. St Josephs did not enter the AAGPS cricket until 1900. Scots played first grade in 1905 then not again until 1915, except in 1911. High played in 1910 but not in 1911. They were back permanently in 1912 and St Ignatius first entered in 1914.

Rifle Shooting became an AAGPS sport in 1903. Previously all shooting competitions were controlled by each School's cadet unit. The first competition was held in 1905. The attempt to record the School's efforts is difficult due to the disappearance of the extremely well kept TKS Rifle Shooting book with records dating back to the 1860's.

Note: an asterisk in a rowing column indicates place in heat only.

During the war years from 1940 to 1945, all competitions were suspended but regular games and races were held though, at the request of the Headmasters' Association, no official records were kept.

28 AAGPS Representation in Sport

Neither the AAGPS nor The King's School has definitive records regarding AAGPS representation. Such School records as exist come from the School Magazine which often went to print before the AAGPS selections were made, or the Student Record.

Where confirmed, the number beside the name reflects the AAGPS team selection and an asterisk represents captain of the relevant AAGPS team. Please inform the School Archivist of any errors or omissions so the records can be as accurate as possible.

28.01 Athletics Senior Teams

The first AAGPS competition was held in 1892. The School has no record of teams earlier than 1917. Below is a list of senior teams.

28.03 1st Cricket Teams

The earliest Cricket team list is the 1847 team. The only other known 1st XIs, prior to the 1868 team, were the teams of 1853, 1857 and 1862. The first AAGPS Cricket competition started in 1893. From that year the award of colours became the main criteria for the subsequent listings.

* Captain of the AAGPS team.

28.06 1st Rifle Shooting Teams

The first AAGPS shoot was held in 1893 but contests had been held within the Cadet Corps from the Corps' foundation at Macquarie Fields in 1866. Unfortunately the School's Shooting Book disappeared in 1965. Thus records for Shooting have had to be reconstructed from other sources and are not as reliable as they should otherwise have been. There are no records for some years from 1870 through to the early 1900s. There was no rifle shooting during the war years, 1940-45 inclusive.

The first AAGPS badges for Rifle Shooting were awarded in 1911, although, from 1903, a combined team was sometimes chosen and competed. An early AAGPS opponent was Sydney University. It appears no AAGPS sides were selected from 1926 until 1962.

* Captain of the A.A.G.P.S. team.

S - Selected in AAGPS squad teams.

* - Selected in Combined Independent Schools Team.

NB Boys in italics did not receive Swimming Colours but were selected for Under age AAGPS teams.

28.11 1st Tennis Teams

The School has no records of Tennis teams prior to 1923 other than 1879 and the information that HM MacKenzie was in the 1886 and 1887 teams. Tennis colours were first awarded by the School Sports' Union to members of the 1930 team: CF McWilliam and FS Treweweke. Tennis was admitted as an AAGPS sport in 1972. Prior to that time Combined Teams were chosen but neither the AAGPS nor the School seem to have kept the records of those chosen. Subsequent to 1972 some records of selection are missing and the Archivist would be grateful for information about these as well as earlier years.

* Captain of the AAGPS team.

28.12 TKS Undefeated AAGPS Teams Other Than First Grade

No special listing has been made of the names of the AAGPS Athletic Junior winning teams, the AAGPS Rifle Shooting winning teams other than the first team listed elsewhere nor the winning Rowing crews, other than the 1st VIII which has crew listings elsewhere, because these events take place on one day only and are not contested over seven rounds. Under the latter conditions it is very difficult for a School to produce an undefeated team.

30.02 Debating

Public Speaking has been a prominent feature of School life since 1832 when, as public evidence of educational progress, the first recitations and orations were given in Parramatta before various learned persons, parents and friends of the School. Public Speaking clubs operated in the School from the 1840s through to the 1880s. There was a revival in 1890 under Dr Harris. PS Waddy, David Maughan and 'Mac' Abbott were boys prominent in this revival which continued for some years. When PS Waddy returned as Headmaster, Public Speaking had gone out of fashion at the School but he soon revived the interest by organising House competitions once he had established Broughton and Macarthur Houses.

The War and the departure of Waddy saw another slump in interest until Mr RG Hay arrived in 1925. From that time onwards the School has entered a team in the AAGPS debating Louat Shield competition. The winners for 1920-24 are as follows: 1920 (E), 1921 (H), 1922 (G), 1923 (S), 1924 (H). For 1925 onwards the winner is indicated alongside the year of competition.

* Representation in the Lawrence Campbell Oratory Competition.

1, 2 or 3 indicates this boy competed in the AAGPS Debating Team.

+ indicates Full Colours- Honours Colours are listed at the end.

30.07 Music

The first concert performed by students of The King's School was in 1836 as there is a report of a public performance. However records of both staff and student involvement are incomplete. Please advise the Archivist if you can help fill in the gaps. In 2007 senior leadership positions were created across the ensembles.

Richard Yeend Chess Competition

The Richard Yeend Cup for Chess is awarded to the top Chess player who competes in the School's Richard Yeend Chess Competition. The Cup is named in honor of RAS Yeend (TKS 1973-1981).

In 1975 Richard was the NSW Under 12 Chess Champion and later represented Australia in the Under 16 Team which competed in the World Titles in Denmark.

The Archivist would be pleased to receive the names of members of the Faraday Club not listed above. These lists were compiled from references in the School magazines 1950-72

30.12 Cartesian Club

The Cartesian Club was founded in 1966 by Mr JWde B Persse (1949-52, M 1963-98), to replace the Twelve Club, then in abeyance. The latter revived in 1967, absorbing the Cartesian Club members. The Cartesian Club did not meet again until its resuscitation in September 1972. From 1972 each boy has been a member of the Club in Year 11 and Year 12 unless there is an asterisk (*) against his name; this indicating only one year of membership. Mr Persse remained the Club's Patron until the Annual Dinner held in August 1997 (which also happened to be the 250th meeting of the Club).

30.13 Scipionic Circle

The Scipionic Circle was founded in 1968 by Mr RI West (M 1969-74), having evolved from the Language Society founded in 1964 by Mr JA Kent (M 1959-66). The name originated from a group of Roman intellectuals of the second century BC whose most distinguished member was Scipio the Younger. In its formative years the School's Scipionic Circle had a large membership but in recent years its membership has followed the membership construction of the Twelve Club. From 1974 to 1987 the Society existed in name only. Regular meetings commenced again in 1988.

Below is listed the names of those members who were mentioned in reports published in the School Magazines, currently the only source of detail up to the start of 1988.

35 GAP Assistants

Since 1990 there have been a number of assistants appointed to assist in Gowan Brae and in other areas of the School with tutoring and supervision. They comprise Old Boys of The King's School and "GAP" students from various schools in the United Kingdom and occasionally the United States of America.

Prior to 1994 resident staff for any House are listed under "The Teaching Staff - Temporary Staff".
